

Business Rules and Business Motivation

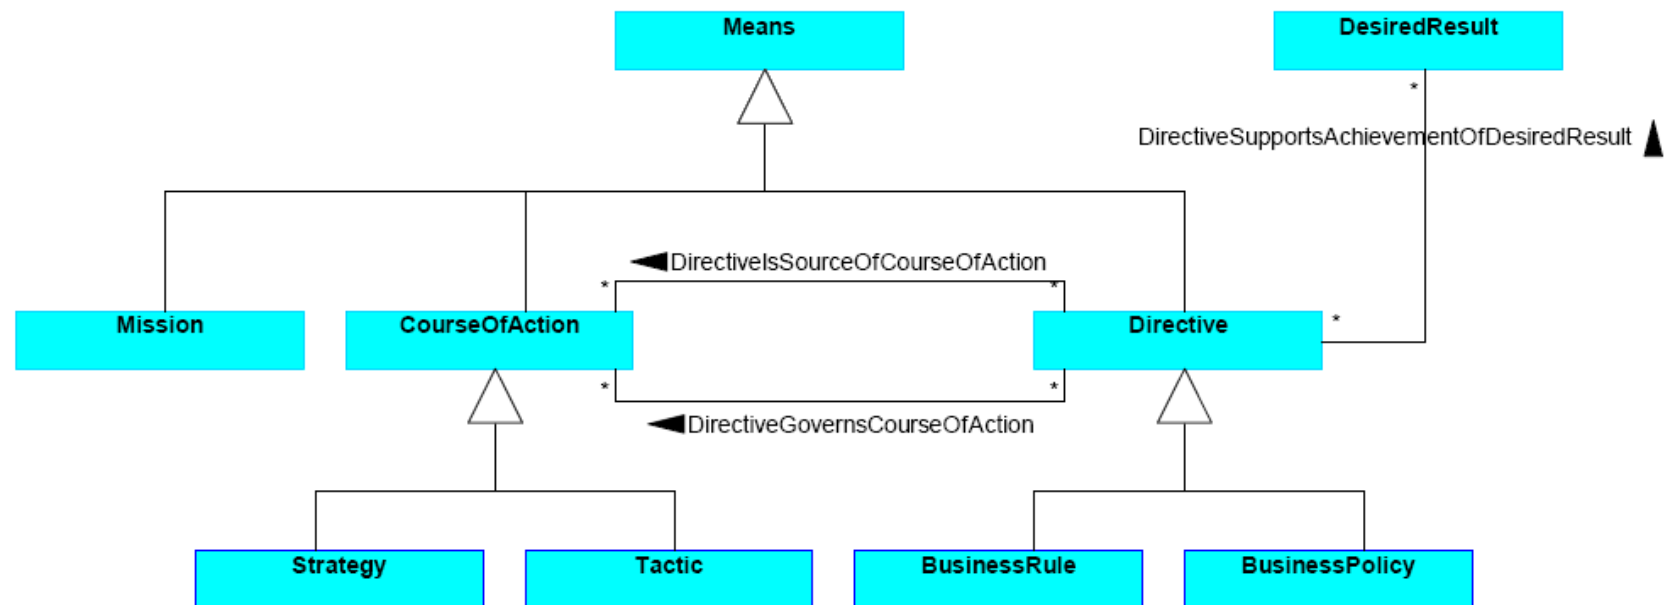

Business Rules show the Way

adapted from (Schacher and Grässle 2006, p. 18)

Business RULES and Business Motivation Model

- Business Rules are Directives that have relations to Policies and Courses of Action

Business Policies and Business Rules

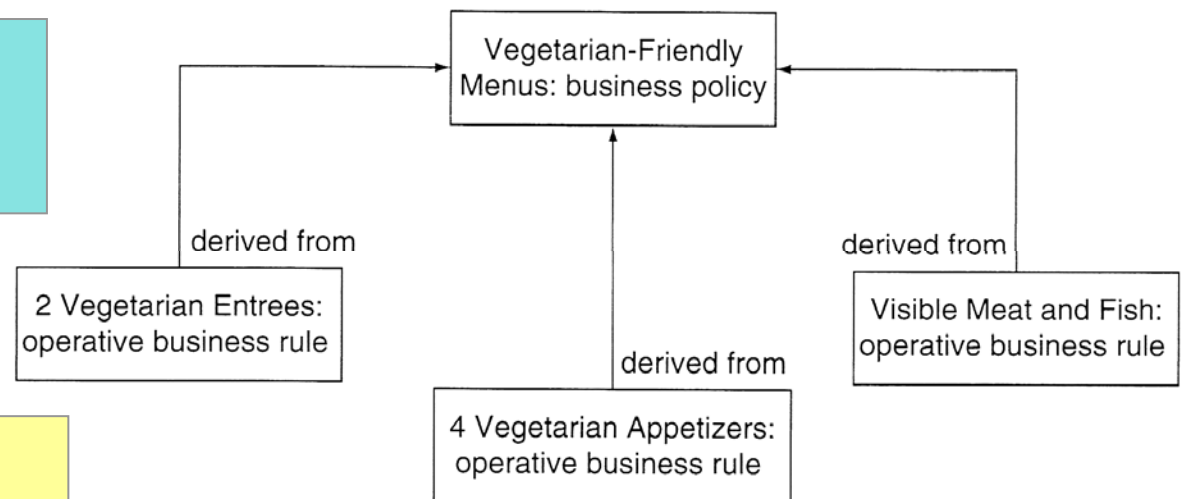

- Business Rules can be derived from Business Policies.
- In general, business policies are not enforceable, business rules are
- Example:

Business Policy:

Vegetarian Friendly Menus: All menus must be friendly to vegetarians

Business Rule:

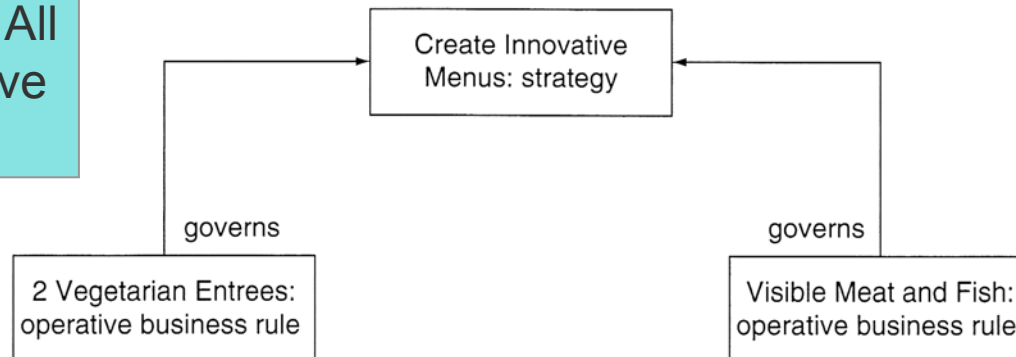

2 Vegetarian Entrees: It is obligatory that each menu include at least two vegetarian entrees

Strategy and Business Rules

- Business Rules govern Courses of Action, i.e. a business rule shapes the way the strategy can be applied by constraining the strategy.
- Example: The business rules **2 Vegetarian Entrees** and **Visible Meat and Fish** could govern the strategy **Create Innovative Menus**

Create Innovative Menus: All menus must create innovative menus

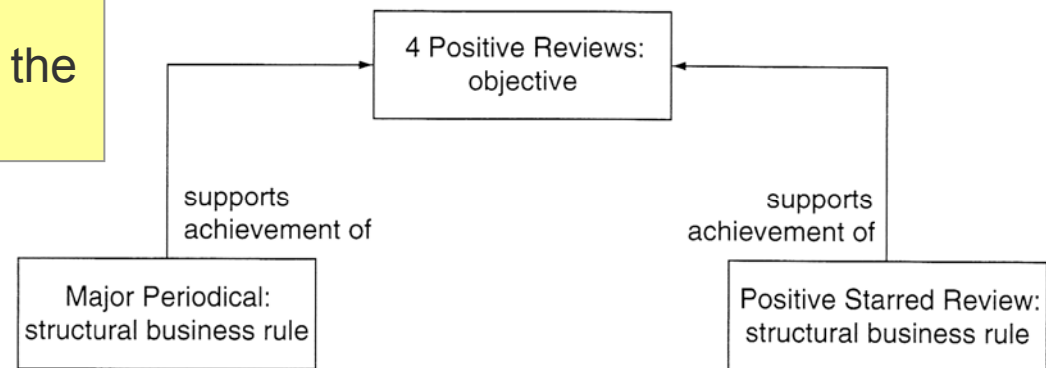

2 Vegetarian Entrees: It is obligatory that each menu include at least two vegetarian entrees

Visible Meat and Fish: It is obligatory that the description of a menu item include an ingredient if the ingredient is a meat or the ingredient is a fish

Business Rules and Desired Results

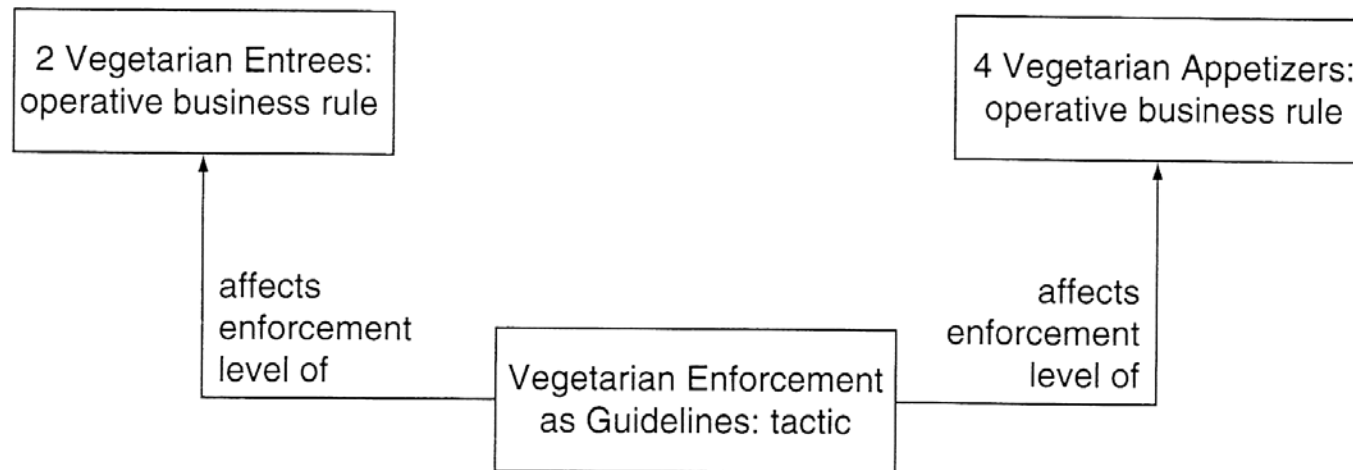

- Goals and objectives are Desired Results
- A common way that a business rules supports the achievement of a desired result is a structural rule defining a noun concept that is used in an objective
- Example: Assume the restaurant Nola has an objective, to have 4 positive reviews in major periodicals in 2010. But: What is a major periodical? This could be defined by structural rule.

Major Periodical: It is necessary that a periodical is major if the periodical has a circulation and the circulation is at least 50'000.

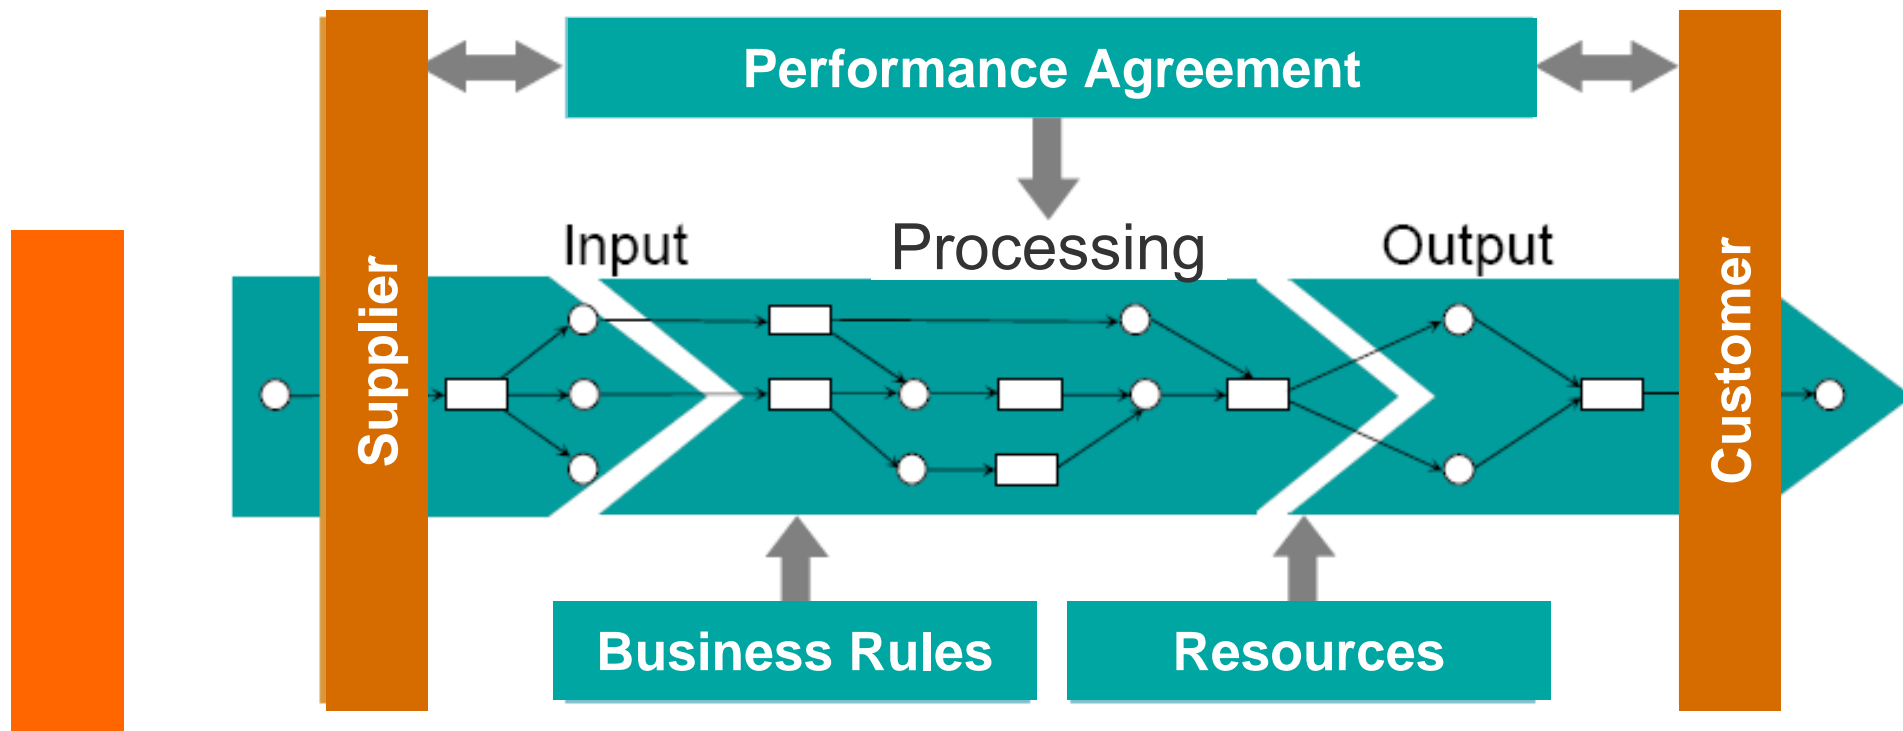

Tactics and Business Rules

- The decision to apply a specific enforcement level to a rule is itself a tactic
- Example:
 - ◆ Mykonos might decide that the business rule **2 Vegetarian Menus** is only a guideline
 - ◆ The tactic **Vegetarian Enforcement as Guideline** determines the enforcement levels of the rules **2 Vegetarian Menus** and **4 Vegetarian Appetizers**.

Business Rules and Processes

Business Processes and Business Rules

- Business Policies govern Business PProcesses by guiding how the work is done
- Business Rules guide the business process. They can be derived from a business policy.

Business Rules guiding a Business Process (1)

- More useful than general relations between business rules and processes are the relationships between business rules and individual model elements of a business process
- Typically, business rules can
 - ◆ guide gateways
 - ◆ activities
- Example: Consider the business process Seat Party. It contains three gateways, which could be guided by business rules

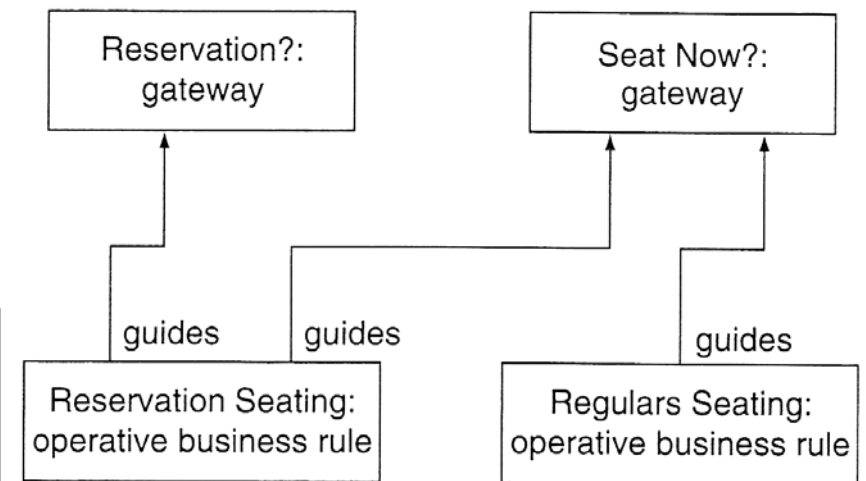

Business Rules guiding a Business Process (2)

■ Example:

- ◆ The business process Seat Party
- ◆ Business rules guide two gateways

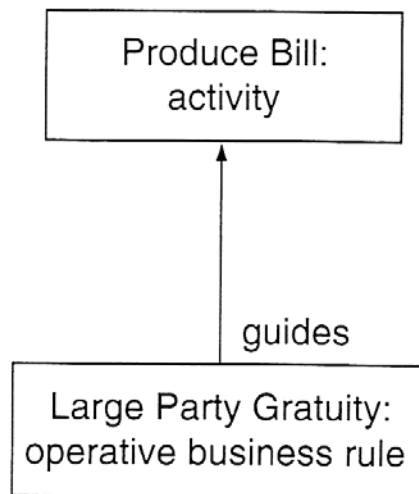

Reservation Seating: It is obligatory that a party is seated if the party has a reservation and a table is available and the table has appropriate size for the party

Regular Seating: It is obligatory that a party is seated if the party includes a regular and a table is available and the table has appropriate size for the party

Business Rules guiding a Business Process (3)

- An activity is guided by a business rule when the business rule helps the person performing the activity do his or her work.
- Example: The business rule **Large Party Gratuity** is used by a server when she performs the activity **Produce Bill**.
 - ◆ If it is a manual activity, the server might include a line item on the bill for the mandatory gratuity
 - ◆ If a software application is used to produce the final bill, the application must be aware of the **Large Party Gratuity** rule.

Large party gratuity: It is obligatory that the gratuity is at least 15% if the gratuity is applied to a bill and the bill is incurred by a party and the party is greater than 7 people.
